

How the Process Works

To submit your anonymous report online

- Simply enter www.report-it.com to access the site, from any on-line computer.
- Students are issued a school passcode for admission to the MEMBERS section and other private areas of the site.
- If the student decides to make a report, he/she enters the information and clicks "SUBMIT". The report is now sent to Report-it.com. The name/screen name is *never* seen. The latest in data encryption technology is used to protect the reporter and his/her report.
